A handwritten signature in black ink that reads 'Henry C. Foley'. The signature is written in a cursive style with a large, sweeping 'H' and 'F'.

To: Dean Seibert

On behalf of the Greater Philadelphia Innovation Cluster (GPIC) for Energy Efficient Buildings, I would like to express our appreciation for your service as an Expert Reviewer for the Opportunity Research Fund (ORF)'s inaugural funding round.

The goals of GPIC, located at The Navy Yard in Philadelphia, are to improve energy efficiency and operability and reduce carbon emissions of new and existing buildings, and stimulate private investment and quality job creation in the Greater Philadelphia region, the larger Mid-Atlantic region, and beyond.

The ORF supports these goals through the demonstration and deployment of energy efficient building technologies, services, policies and education/workforce programs into the regional building retrofit marketplace. Through the ORF program, GPIC also seeks to encourage the growth of business and job creation throughout the region.

Your participation as an Expert Reviewer was crucial to the proposal evaluation process and to the selection of the finalists. Of the forty-two submitted proposals, seven were selected for funding totaling \$1.3 million. Moreover, your analyses provided the submitting organizations invaluable feedback that can lead to improvements in their proposals and new business opportunities. Dedicated professionals such as you will help GPIC achieve the economic and energy efficiency goals that we have set for our region and country.

Again, we're grateful for your support and look forward to your future participation in GPIC activities.
