

Wire-Clip: WC360

484-332-1661 www.solcraftpdc.com

W-Clip 1 1/2" x 1" x 3 3/8" in boxes of 60 pieces.

Made of a durable PVC material and it is easy to clip and cut. The clip controls and organizes electric cables.

The clips snaps into the E-Channel and secures wiring into place. The clip provides an attachment area for back fastening of electrical boxes.

Installation:

Separates the power lines
Quickly snaps into place

Attachment strip for:

Electrical boxes
Wood nailing strip

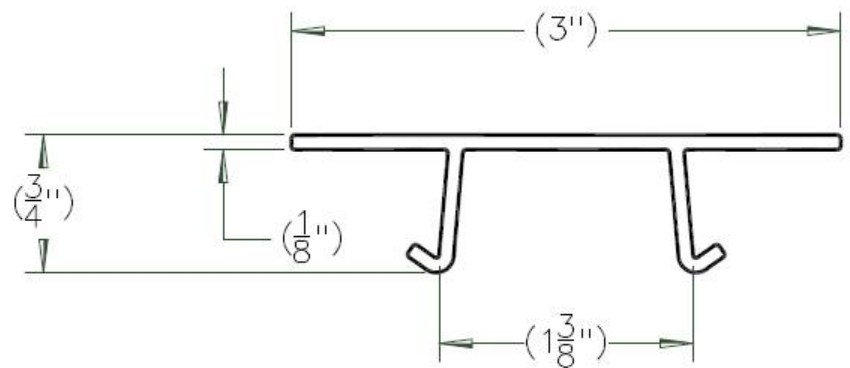

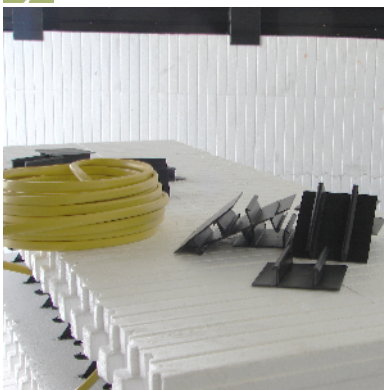

Provides support for:

Reinforces main channel joints
6# 1 1/2" drywall screw

New technologies and services can easily updated in the future. The installation of electrical wiring components in the interior face of an ICF wall is faster and less costly than the installation of wiring within a concrete or stud wall systems.
